

Quiz: Water Conservation

Question 1

Which of the following is NOT a direct environmental benefit of water conservation?

- A) Maintaining healthy aquatic ecosystems
- B) Protecting wildlife habitats
- C) Lowering utility bills for consumers
- D) Reducing strain on wastewater treatment facilities

Question 2

What is a significant social benefit of practicing water conservation?

- A) Increased profits for water companies
- B) Reduced need for new water infrastructure projects
- C) Ensuring a more reliable water supply for current and future generations
- D) Decreased water pressure in residential homes

Answer Key

1. Answer: C

Lowering utility bills is an economic benefit, not a direct environmental one. The other options directly relate to the health of the environment.

2. Answer: C

Water conservation leads to water security, ensuring a more reliable supply for everyone, including future generations. This is a key social benefit.
