

Quiz: Sustainability

Question 1

Which of the following is a key principle of sustainability?

- A)** Meeting the needs of the present without compromising the ability of future generations to meet their own needs.
- B)** Prioritizing economic growth above all other considerations.
- C)** Using up all available resources as quickly as possible.
- D)** Ignoring the impact of human activities on the environment.

Question 2

Which of these is an example of a renewable energy source?

- A)** Coal
- B)** Natural Gas
- C)** Solar Power
- D)** Oil

Answer Key

1. Answer: A

Sustainability focuses on balancing present needs with the needs of future generations.

2. Answer: C

Solar power is a renewable energy source because it is replenished naturally.
